DETAILED ACTION

Please note that claims 4 and 12 are drawn to the use of the histamine H1 and H4 antagonist; however, no actual method steps are recited herein. It is treated as method of treatment claims and grouped with other method of treatment claims for restriction purpose. Appropriate correction is required.

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-3, and 6-11, drawn to a composition comprising a histamine H1 antagonist and a H4 antagonist, classified in class 424, subclass 400-502, 130.1, and 143.1; also class 930, subclass 10-320; class 530, subclass 300+.
- II. Claims 4, 5, 12, and 13, drawn to a method of treating a disease or disorder in a mammal, classified in class 514, subclass 1-19, 217.05, 290, 317, and 255.03.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as product and process of use. The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be used in a materially different process of using that product (MPEP § 806.05(h)). In the instant case the method of treating

asthma and allergic rhinitis can be practiced with a materially different product such as corticosteroids.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Because the above restriction/election requirement is complex, a telephone call to applicant's agent to request an oral election was not made. See M.P.E.P. Sec. 812.01.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
